

Danijel Tupajić

Date of birth: 26/01/2001 | **Nationality:** Bosnian-Herzegovinian | **Gender:** Male |

Phone number: (+387) 0603269995 (Mobile) | **Email address:** danijeltupajic7@gmail.com |

Address: Bosnia and Herzegovina (Home)

● ABOUT ME

I am an ambitious and team-oriented aspiring engineer with a strong interest in CAD design, product development, and information technologies. I enjoy solving technical challenges, working on innovative projects, and continuously expanding my knowledge. Through international experience, including the Erasmus+ programme, I have developed adaptability, strong communication skills, and the ability to work effectively in multicultural teams. I am proactive, responsible, and always ready to take on new challenges.

Outside of my professional career, I have successfully competed in various sports, earning awards and achievements that strengthened my discipline, resilience, and competitive mindset. I continue to lead an active lifestyle and actively follow the latest developments in the world of sports.

My goal is to build an international engineering career, contribute to innovative projects, and continuously develop both my technical and professional skills. [Feed](#) | [LinkedIn](#)

● EDUCATION AND TRAINING

07/10/2024 – CURRENT Kiseljak, Bosnia and Herzegovina

INFORMATION TECHNOLOGY University College “CEPS - Centre for Business Studies” in Kiseljak

Software Engineering, Object-Oriented Analysis and Design, Programming, Database Management Systems (SQL), Data Analysis, Algorithms and Data Structures, Computer Architecture, Operating Systems, Computer Networks, Information Systems, Business Informatics, Digital Economy, E-Business, Business Process Modelling, IT Project Management, Software Process Management, Software Design and Testing, Network Architecture and Services.

Completed one semester (2026) through the Erasmus+ programme at the University of Seville (Universidad de Sevilla), Spain, where I completed courses in Business Management, Informatics Engineering, Network Architecture and Services, Software Process Management, and Software Design & Testing within an international academic environment.

Level in EQF EQF level 6

● WORK EXPERIENCE

CAD DESIGN ENGINEER – TIP-CONSULTING – 01/01/2024 – 06/07/2026 – SARAJEVO, BOSNIA AND HERZEGOVINA

Designed mechanical components and assemblies using Fusion 360.
Developed and optimized UAV (drone) components from concept to prototype.
Created 3D CAD models and detailed technical drawings for manufacturing.
Prepared models for 3D printing and prototype validation.
Collaborated with the R&D team on product development and engineering improvements.
Participated in testing, evaluation, and refinement of mechanical designs.
Assisted in the development of innovative engineering solutions for UAV systems.

● SKILLS

CAD Design (Fusion 360) | 3D Mechanical Modelling | Technical Drawing & Documentation | Product Design & Development | 3D Printing & Prototyping | Object-Oriented Programming (OOP) | Database Management (SQL) | Software Engineering | Computer Networks | Information Systems | Microsoft Office (Word, Excel, PowerPoint) | Git | Python | C++ | Java | CSS | HTML | Git/Github, Docker, Gitlab

● **LANGUAGE SKILLS**

Mother tongue(s): **BOSNIAN | SERBIAN | CROATIAN**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C2	C1	C1	C2
SPANISH	B1	B1	A1	A1	A1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● **CONFERENCES AND SEMINARS**

17/06/2024 – 21/06/2024 Paris, France

UAV Drone Project Presentation & Engineering Design Conference

Presented an engineering project focused on UAV (drone) development, including mechanical engineering design, CAD modelling, mechanical components and airframe design. The presentation covered the development process, materials used, product structure, 3D printing, assembly, and configuration of drone systems. Gained practical experience in FPV drone piloting, component selection, configuration, and technical presentation of UAV solutions.

● **CREATIVE WORKS**

04/11/2025 – 28/12/2025

AI Software Applications & Automation Solutions

Developed AI-based software concepts and automation solutions, including chatbot development and AI-assisted applications. Worked on designing intelligent workflows, conversational interfaces, automation processes, and practical implementations of AI technologies to improve user interaction and operational efficiency.

10/03/2026 – 28/03/2026

Web Application Developer

Designed, built, and deployed modern, interactive web applications featuring 3D visualizations, interactive UI elements, and real-time CAD file analysis using Next.js, React, Three.js, and TypeScript. Developed backend server architectures, integrated AI API endpoints with Node.js, and managed automated deployment pipelines via Vercel and GitHub. Applied user-centered design principles to build responsive layouts, dark/light theme systems, custom visual assets, and dynamic user interfaces tailored for high performance.

Link github.com/DakyRetzu

02/04/2024 – 19/09/2024

NFT Collection Design & Digital Illustration

Created a complete NFT collection concept, including digital illustration, character development, visual identity, and collection design. Developed unique artwork variations, traits, attributes, and visual elements required for NFT generation. Worked on concept creation, storytelling, rarity structure, metadata preparation, digital assets organization, and preparation of artwork for blockchain-based collection implementation.

Link <https://www.behance.net/gallery/200071957/NFT-Illustration>

07/03/2024 – 15/07/2026

3D CAD Mechanical Design & Engineering Modelling

Developed mechanical design concepts using 3D CAD modelling tools, focusing on product development, technical drawings, component design, and engineering visualization. Created 3D models of mechanical parts and assemblies, optimized designs for functionality and manufacturing, prepared technical documentation, and applied principles of mechanical engineering, prototyping, and product development.

07/03/2024 – 15/07/2026

FPV Drone Design & Development

Designed and developed FPV drone systems, including frame design, component selection, assembly, configuration, and performance optimization. Worked on drone architecture, electronics integration, flight controller setup, hardware configuration, and practical testing. Developed knowledge of UAV systems, FPV piloting, troubleshooting, and technical customization of drone builds.

● **HOBBIES AND INTERESTS**

Mixed Martial Arts (MMA), Brazilian Jiu-Jitsu & Kickboxing

2017 - Present (9 years)

Practicing mixed martial arts with a focus on MMA, Brazilian Jiu-Jitsu (BJJ), and kickboxing since 2017. Participated in amateur competitions, including two MMA tournaments, one kickboxing tournament, and four BJJ competitions. Achieved competitive results, including a silver medal in kickboxing, two bronze medals in MMA tournaments, and two 4th-place finishes in Brazilian Jiu-Jitsu competitions.

Participated in judo competitions organized as part of humanitarian initiatives, combining sports engagement with community support and social responsibility.

Since 2025, sharing knowledge and experience by conducting private martial arts training sessions in Bosnia and Herzegovina and Spain (2026). Providing personalized training focused on technique development, conditioning, skill improvement, and helping others develop their martial arts abilities.

Basketball

Playing basketball recreationally as a personal hobby. Participated in a 3x3 basketball tournament in 2014 and achieved first place. Continue to practice basketball occasionally for recreation, physical activity, and personal enjoyment.

Football (Soccer)

Played football competitively as a member of FK Novi Grad, primarily as a right defender. Participated in football tournaments and achieved first-place results in six competitions during the period from 2010 to 2013.

Currently continue playing football recreationally as a hobby, focusing on physical activity, teamwork, discipline, and personal development.

During my schooling, also participated in chess competitions and achieved first-place results in two chess tournaments.

Athletics & Sports Activities

Actively engaged in various sports activities, with a strong passion for athletics and competitive sports. Participated in track and field competitions, achieving first place in the 100-meter sprint and first place in relay races.

Continuously participating in sports events, actively following the international and local sports scene, and maintaining a strong passion for sports culture and athletic development.
